Summary

Part I

All of these concepts are interconnected with each other and important ones. But, I would prefer freedom. This is the most vital thing for any human and creature.

Different local agencies should do cleaning with monitoring of the government. Government can support those entities to do it.

No, I approach abortion as a negative tendency. People should use preventive methods in order to avoid abortion. First, it is bad for the health women; and second, it is a sin.

No, Azerbaijan has its own enough refugees. that's why, I don't agree with it.

Official language of the country where we are living is Azerbaijani. And, we should learn Azerbaijani, not anything else.

Ethnic and cultural diversity might be a threat. Sometimes, they are motivated to separatism.

I don't agree with this argument. I think, we should firstly think of people and society. People should be granted with freedom even economy that they can do whatever they want. But, the government should control the economy in a minimum, as well.

Part II

I have mono identity. I am Azerbaijani. Because, Azerbaijan is Muslim country, and Azeri Turk which all of these includes in identity of Azerbaijani.

Whenever, religion was created, its purpose was not worst. But, later, some people abuses it. In general, Islam is very beautiful religion.

Language. Every nation should have its language.

Borders between the countries are important. It is because of the security. At the same time, it is vital because of neighbors.

internet and social networks is good as well as bad thing. It makes close people alien; and alien people close.

The restoration of historical borders would cause war and bloodsheds. But, our territory used to be very huge. And, majority of it has been occupied by different countries. I can't imagine, if we want all of those lands back to return.

Part III

I don't know, why the Nagorno-Karabakh conflict has not been solved yet. Maybe, there some interests of some countries on this conflict. But, our nation should gather and return it.

Nobody in the government seriously cares about this conflict. If you want to solve a problem, you should seriously work on it.

I don't want to have a war because, generation that has seen the war are grown up; and they are going to military services. I absolutely refuse military methods to solve this conflict. Recently, the war started (she means April incidents) and I saw all of happenings by myself. I don't want our youth to be killed.

I imagine the life of ordinary people very nice. Everything will be very beautiful because Karabakh is very cute place. Wars always happens among nations. And, our nation is able to forgive. That's why, Armenians and Azerbaijanis will peacefully live together.

Terrorists are enemy of all of the world. For me, the biggest enemy of Azerbaijan is Armenians.

Nagorno-Karabakh belongs only Azerbaijan. Armenians can live there together with us. I just don't want to loose this land from our map.

Initiative should come from Azerbaijan. But, hegemonic countries could help to solve it. I think, Armenia and Azerbaijan can also solve this conflict, if they would go negotiations alone without intervention of third parties.

No, I don't
