2. male
3. 1975
4. Baku , Azerbaijan
5. No degree
6. no party membership
7. NIDA
8. Internet;
9. Two times a year
10. Russian speaking

**Summary**

**Part I**

The protection of human rights is the most important. People understand freedoms very largely. I would not support the LGBT pride parade to be hold in Baku.

Government should take care of the cleaning the town. We pay taxes and it is their responsibility to take care of the city. It is also the responsivity of the citizens to keep the cleaning of their town.

I know many people to get married without their parents being aware of it. I think parents should absolutely participate in this process. They should prevent unwanted pregnancy. Women can abort, but it is better to prevent it.

Immigrants and refugees should be accepted to come to Azerbaijan. We should develop our economic situation and then talk about this issue. Apart from some Pakistanis, no immigrant would choose to come to Azerbaijan.

It is better to have separate schools to those ethnic groups. They live in small communities in some cities. It would be better to have their own schools. They should learn their own language, culture, and history. Talishs for instance has rich history and culture.

It depends on the government whether or not ethnic groups are enrichment or threat. If government provide them jobs, social welfare, and protection, they will not be a threat. They are also Azerbaijani. They should also enjoy all the resources of the state. There is such a big economic social gap between regions and the capital.

I totally disagree. The economy of the government is for its citizens. Economy and governments serves for people.

**Part II**

I am an ordinary Azerbaijani. I am proud of being Azerbaijani. First because I have Caucasian mentality, Turk ethnicity, eastern culture and Islam religion. It is very specific for us.

If I were abroad, I would choose citizenship of the world. I feel ashamed of being from Azerbaijan. In Turkey, I went to see the grave of Rasulzadeh in Turkey, I was not allowed to see it, because I was Azerbaijani. When I am in Azerbaijan, I am proud of being Azerbaijani.

Religion is very beautiful. We should look at the history of religion and respect it but do not accept figures as a sacred people. I have read Koran many times and it is different from the real

**Interview 14.F | Duration: 41mins 49 sec**

usage of the religion today. Religion brings peace. In Koran, it says that all one-theist religions are brothers. Imagine if all religions co-exist and be peaceful.

Nation are humans. It does not matter where they are. Even abroad, when someone says something in Azerbaijani language, I get impressed and feel closer.

Borders are very important today. Some governments are threat to each other, not the nations. I also wish I could ride a car from Azerbaijan to Europe without any borders. It would be better to live without borders.

Elimination of borders though internet is excellent. It is cheaper or people in need who finds it hard to move is able see, communicate with his/her family or friends though internet. Living without borders is impressive.

If Azerbaijan tries to restore its historical borders, though negotiation it will be good. Even though war, we can do that. If we become powerful, state and restore Tabriz, Darband we will strengthen our state and nation, and increase the security of our security.

**Part III**

The conflict is not solved for me because we are unable to move to Karabakh. The current governments are not interested in solving this conflict. They receive humanitarian assistance and many privileges because of war situation. They benefit from the conflict a lot. People in Armenia do not care much about Karabakh.

The political leaders should investigate the processes and find out why the conflict is not solved yet. The conflict is going on for 25 years. There is a reality that we cannot move Armenians out of Karabakh. Russia is selling weapon to both states. The third party should not intervene to this conflict.

I imagine the life after the resolution of the conflict. I imagine that all karabakhians live together. Demining activities have been taking place. I imagine that Armenians also live there. Armenians used to live there; also, they used to live in Baku. Karabakh, Baku was their home also. We can live together peacefully, despite of all genocides and hatred. If Armenians will not come to compromise, we are able to return our territories though war.

The biggest enemy of Azerbaijan is Azerbaijan itself. If Azerbaijan could develop itself and protects its people, we would not have those problems today.

Nagorno Karabakh belongs to Azerbaijan. Erevan khanate also belongs to Azerbaijan. We have been dividing all the time. There was no union.

Only political leaders of two state can solve the conflict. These leaders should listen to its nation. In April escalation, people died in vein.

The president of Azerbaijan should claim to the president of Armenia, without fearing from Russia and USA, due to one week, Armenian Army should withdraw from Karabakh, civilians might stay. Otherwise, our Army will come in one week until Erevan. If we consider ourselves strong state, we should say it and everyone would support the president. I would also support my president if he would claim it.
