Summary

Part I

I want to have all four concepts. All of them are important. But, security is more vital. Look, do you remember Mutallibov's period in 90s. People could not peacefully walk in the streets but, nowadays, we can securely live and get our pensions on time. And, people are working in the factories, right now.

No. the government have to do all of the cleaning activities by itself. The government should provide financial support to private companies. Then, they have to clean the streets.

No. Women must not have the rights of abortion.

We have our own one million refugees coming from Armenia and Nagorno-Karabakh. But, not now. We don't need any refugee or migrant from any country.

Ethnic minorities can learn in Azerbaijani language. If there is an option to learn in English, then they can learn it as well. But, not in their own native language. Not in Azerbaijan, at all. English, Russian and Azerbaijan. That's all.

Ethnic and cultural diversity is a threat. Some individuals from those groups of people wants to burn and blow up here. Armenians give them money and ask to blast Azerbaijan. Few of them have been even arrested.

First of all, human...then the government. If there is not any human-being, how the government and its economy exist.

Part II

I am pensioner. I have 4 sons and 8 grand-children. First, I am citizen of Azerbaijan. Because, I don't believe the rest of the options you mentioned.

In general, religion is used for good purposes. But, it depends in which country the religion is used. Look at US, Turkey, Azerbaijan...in this countries, the religion is used for better things. But, no in the rest of the countries in the world. Lezgis in Russia use the religion for bad things.

Language. The most important thing is language. The nation has to own its own native language.

Borders are very important nowadays. If we wouldn't have borders, people would be killed in the streets. You see, we have borders and check-points to let the people for entering Azerbaijan. If a person has permission, then s/he can enter, otherwise, NO.

No. Internet is bad thing.

We have to return our historical borders. We can even start the war. Look, Armenians do not want to give back our lands. We can be more powerful, if we may return back Nagorno-Karabakh. Lots of things can be created there.

Part III

Russia takes part of Armenia. That's why, the Nagorno-Karabakh has not been solved yet. Russia provides them with everything, including armor. Russia wants to have money. Russia is to blame. Then, Armenia.

We could peacefully live together with Armenians. Armenians used to live in Azerbaijan. If they want to live in peaceful country, they can come and we can live together.

The biggest enemy of Azerbaijan is Armenians. They have invaded our lands.

Nagorno-Karabakh belongs only to Azerbaijan. Nobody else. Yerevan also belongs to Azerbaijan. Azerbaijanis used to live there. Armenians shouldn't live in Nagorno-Karabakh in the future.

Azerbaijan is able to solve the Nagorno-Karabakh conflict. Azerbaijan can use two of its rockets and return back our lands.

No. I don't believe such kind of things. None of the conflict looks like the Nagorno-Karabakh conflict.
