**Summary**

**Part I**

Political stability is important. I do not want worse or best, it is better to have what we have now. It is good to have stability.

Government should take care of cleaning of the town.

You should not ask me about abortion. You should ask women. It is up to them to decide.

Government should calculate its resources and define how many refugees it is capable to settle in the country. Therefore, it is up to government.

It is extra activity to study in minor languages. Ethnic groups can speak their language among themselves, but there is no need to study, if they will not use it somewhere else afterwards.

I cannot say whether ethnic groups are enrichment or threat. It is one or the other way.

There are humans both in the government and in society. If I choose society over government then humans in the government are left behind. Government should control the economy.

**Part II**

I have mono identity. I do not belong to any of the categorized identities. I am just the citizen of Azerbaijan.

There are people who use religion for bad reasons. I have not seen any harm from my own religion.

Nation is my relatives, relatives of my relatives, relatives of their relatives etc. It all combines in Azerbaijan nation.

There is a need to control the borders. Therefore, borders should exist.

Elimination of borders in internet is good for poor people. Before there was a need to travel and spend a lot of money. After internet usage, it is not needed and not costly.

If one states tries to restore its historical borders, then all states will try to restore their historical borders. It will be crossed and clashes. It is waste of time.

**Part III**

It is desirable to solve the conflicts. Governments are trying to negotiate and solve the conflict. Perhaps one day it will be solved. The negotiations are secret and I do not know who is preventing the conflict to be solved, who should be blamed.

I see the solution of the conflict through peace. It is an advantage to solve the conflict through peace, negotiations.

After the resolution of the conflict, people from Karabakh will be able to come back to their lands, homes, show around to their children. It will be beneficial. If the conflict is solved through peace, they will follow the peace agreement. Armenians and Azerbaijanis can live there. I do not want Armenians to take homes of Azerbaijanis. I do not know any Armenian, so I do not know how their behavior or characters are.

I think our current enemy is Armenia. For the parents of dead soldiers, Armenia is always enemy.

Nagorno Karabakh belongs to Azerbaijanis.

OSCE Minsk group has started to solve the conflict and they will solve it.
