Summary

Part I

For me, freedom is the most important thing. When person is free, he lives comfortably. That is why I think so.

Government should take care of cleaning. If government does not do it, it is not going to be done by anybody else.

Women should not have right for abortion. Because it is against to everything. There is not too much to tell about it.

No, I think we have more than enough refugees (internally displaced people). Azerbaijan should take care of his own refugees first. It is more beneficial.

I think, ensuring more rights for ethnicities in Azerbaijan will cause more problems. Azerbaijan is not ready for that. But if we take it in general, of course, it can be done. Why not? In whole world, everybody has right to use his own language.

Being multinational is a positive case for a country.

For government, its citizens should come first. I think so.

Part II

I identify myself as an ordinary citizen (civil person).

When I am asked about my identity, first thing that comes to my mind is my Azerbaijani citizenship. Because, I was born here, I have been raised here and I make my life in Azerbaijan.

I think, if religion can be used for positive things, it would be more beautiful. I cannot say what other people think, but this is opinion.

Nation is the place where we were born.

Borders among countries are important. From time to time, in some points, borders will be taken, or it will be created.

I do not like internet. Specially, when it is used by teenagers. Actually, it is a good thing, but if you use it properly.

If historical borders can be replaced, everything will be better. I believe, historical borders will be restored. Just it takes time.

Part III

The key of Nagorna Karabagh conflict, is in the difficult (wrong) hands. Hopefully, it can be resolved soon.

It is too early to look for a culprit. If we want to get our lands back, we should not be looking for culprit, we should ask for our lands. If we focus on finding who was the culprit, it will take another 25 years, and it will go on and on. But what we must do is retaking our lands back piece by piece.

Firstly, peaceful way is better. We should try to negotiate. But if they do not agree to give our lands back, then yes. We should use our (military) power and take our lands back.

I think, after resolution of the conflict, we (Azerbaijanis and Armenians) will live together as it was before 1990s. Kindly and peacefully. There is no other way. May be some people do not know, but if you live together, if you see each other every day, you should say hi. It is impossible to live with revenge dreams. Nobody can survive in that condition. Only and only peace is the way.

During I was living in Lachin, every time when I go somewhere and see my Armenian neighbors, I was meeting (greeting) them. Even I remembered a story now, I will tell you about it. I do not remember exactly, but it was 1990 or 1991, I was working with my dad in the field. Suddenly, my Armenian acquaintance came there. We meet, we asked about our lives and he warned me to be careful. He said that, I'm sure about our (Armenian village) people. They never hurt you, but be careful with other people, especially with young people. What I mean is we had good relations before.

For now, our main enemy is Armenians. Because, this (conflict) is not be solved. If we can solve it, it will be clear who is the real enemy. I think so.

No need for reading the options. Stop there. Nagorna Karabagh always belonged to Azerbaijan and it will be a part of Azerbaijan. Just they (Armenians) were living there. They used to have autonomous territory, but it was a part of Azerbaijan all the time. Hopefully, it will be taken back soon. I have driven to Yerevan with my own car. It was about 270 kilometers from Lachin to Yerevan, and just 25 kilometers to Gorus. I used to leave my car there and when I am back, nobody used to touch it. It was staying there safely. (Cursing miscreants)

Only and only presidents of both countries should seat and solve this problem peacefully. They should find a way out of this conflict. Not the way for revenge, but peace. Only and only peace.

I think, there is no other conflicts just like Nagorna Karabagh. It is so complicated that, I cannot compare it to anywhere in the world. This territory has always been a part of Azerbaijan; it must be and it will be again. It is just a temporary situation.
